make a difference

to your teaching
to your students
to your future!

...by being part of next July’s

THIRD ANNUAL TECHNOLOGY, TEACHING
& LEARNING INSTITUTE

6-11 JULY 2003

I was very pleased to find that
the presenters were real
teachers who have tried all
the strategies before
presenting. The best
in-service I have attended.

Derek McDowall, Brisbane
Grammar School QLD

The Technology, Teaching and Learning Institute...

...the professional learning experience that is fast becoming the No.1 choice for
technology-using educators from around Australia.

...designed for teachers who are striving to do better; teachers who are looking to
be challenged in the way they teach... and it is technology that has thrown down the
gauntlet.

In a technology-rich classroom, what we have always done is simply no
longer good enough. There is so much more we can do, and nothing is as
exciting as learning just what is possible... at the Technology, Teaching &

Over six packed days, teachers meet to complete two courses of up to 10
hours each, plus up to 10 further shorter courses, developing strategies for
extending learning within their classrooms through the natural integration
of technology.

The courses are led by some of the best teachers in the field from Australia
and overseas, coming together once a year to share their expertise and
experience in an intensive, challenging and thought-provoking manner.

A broad range of courses are offered for Science, Maths, History and
English teachers.

The Institute is fully residential, and is being held within the facilities of
Melbourne University, in Victoria.
Not for the faint-hearted!

If you are used to those 'inch-deep, mile-wide' conferences, which just make you feel good about what you're doing, excited for a day, then these courses are not for you.

If you are looking to be challenged and inspired to create new learning experiences for your students, then this is just what you are looking for!

Registration information

Class sizes are strictly limited to a maximum of 14.
Many of last year's courses filled early, so register early, as all Institute courses are filled on a first-come, first-served basis.
Plus...lower your registration costs...
- Significant discounts for schools that bring 3 or more delegates.
- Interstate travellers from WA, Qld, NT and New Zealand are eligible for a $100 travellers' subsidy.
- Early-bird registrations also save $100!

Mt. Eliza VIC 3930

I found the interaction of presenters and participants to be fantastic. I have taken away terrific ideas to change the learning situation to be better for my students.
Cecilia Kinsella, St Hilda's WA
